SUBJECT: PRESCHOOL GENERAL LETTER (SEM 1 WEEK 3)

Dear Preschool Parents,

We have successfully completed the initial weeks of this academic year, and we are pleased to provide the following updates.

Extracurricular Activities

MGS has started extracurricular activities like music, computers, and art. These classes are very important for children to grow in many ways. Music helps them learn patterns and improve their language and listening skills. Art helps them with their fine motor movements and lets them show what they feel using drawings and colours, especially since young children might not know many words yet. Also, learning about computers is just as important as learning languages now, and good teaching will show them how to use computers responsibly. At MGS, we believe in the holistic development of our students, making learning fun.

Professional Development

On July 26th, teachers from MGS Preschool and Primary participated in the Jolly Phonics Workshop. This workshop aimed to equip them with the skills necessary to teach young learners listening, reading, and writing, thereby fostering early literacy.

What's new?

Facilities

MGS is constantly working on upgrading the facilities to provide a safe, healthy, and conducive learning environment for our students. We have recently painted the basketball courts, fence and other facilities, renovated the lockers, bookstore and isolation room, added new ACs, water dispensers and projectors.

Logo

As Mahatma Gandhi School continues its journey of growth and renewal, we are proud to introduce a new school logo — a symbol that reflects not only who we are, but who we are becoming.

This change is more than just a visual update. It marks a deeper alignment with the values and vision we now carry forward as a school community. Our new logo captures the spirit of our philosophy: to nurture innovative minds, compassionate hearts, and strong character. It reflects

our belief that education must go beyond academics — it must inspire courage, integrity, resilience, and a lifelong sense of purpose.

Why We Made the Change

The new emblem brings together elements that represent:

- Knowledge and curiosity, through the open book
- Aspiration and leadership, symbolized by the torch
- Unity and shared purpose, held together by the protective shield
- Legacy and growth, through the inclusion of our founding year — "Estd. 1950" — grounding us in tradition while moving confidently into the future

This visual identity is designed to echo the values we teach every day: integrity, compassion, resilience, and respect. It is a reminder that our school is a place where students don't just learn, they grow into thoughtful, capable individuals who make a difference in the world around them.

A Living Philosophy

As part of this change, we've also renewed our mission, vision, and core values, ensuring they are meaningful, actionable, and reflective of the kind of future we are preparing our students for. We invite you to read them, reflect on them, and walk this journey with us, because at Mahatma Gandhi School, growth is a shared commitment.

Best regards,

Dr. Rini
MGS Preschool Department
