Jakarta, 28th November 2025

SUBJECT: PRIMARY NEWSLETTER (NOVEMBER 2025)

Dear Primary Parents,

We're wrapping up the month of November! Here are the highlights and special moments from the past few weeks.

Field trip 2025

On November 7, our Primary students had a thrilling field trip to Inagro, Bogor. They experience nature-based activities like fish and duck catching, working in the paddy field, stream tubing, and flying fox. Despite the long and hectic day, the children's enthusiasm and energy were boundless. This adventurous experience perfectly aligns with the MGS mission **to empower students to face challenges with courage and resilience.**

Charity Bazaar

On November 15, MGS hosted its highly successful annual Charity Bazaar, driven mainly by the Secondary Student Council. This event was a major showcase for student-led initiatives and entrepreneurship. Students managed everything from social media promotion and ticket sales to organizing the program, including food/game booths and a Haunted Escape Room. Living up to the tagline, **"Share, Support, Shine,"** we saw students share innovative ideas, support each other throughout the process, and shine through their valuable contribution to the community.

Assembly

On November 21, 2025, Grade 2 led the morning assembly. The theme was *'Apology and Gratitude'*. The students put up a choir performance and dance on *'You'll be in my heart'*. The students' performances revolved around the conflict, learning through them and its resolution.

National Teachers' Day 2025

In honor of National Teachers' Day, the MGS Parent Committee organized a truly special event to express gratitude to our dedicated teachers. The celebration featured student and parent performances, gratitude vlogs, and heartwarming messages from the community, beautifully demonstrating the appreciation we hold for our teachers' dedication.

Semester 1 Final Examination

We are proud of our Primary students (Grades 1-6) who recently completed their examinations. Beyond assessing knowledge, the objective of these primary-level exams is to help students acclimatize to examination rules, develop strong work habits, and practice coping with pressure. We encourage every student to put in their best effort, regardless of the outcome. Crucially, the exams are a practical opportunity for students to learn and live the MGS core value of showing ***integrity in our actions*** by being honest.

Competition

We extend huge congratulations to our talented students! On November 12, MGS earned a remarkable 3rd Place in the DKI Jakarta Provincial Choir Competition, held at the prestigious Gedung Kesenian Jakarta. We are incredibly proud of our students for their diligence and commitment to excellence. Our deepest thanks also go to our dedicated Music teacher, Ms. Ina, for training, inspiring, and guiding the choir to this outstanding achievement.

After School Activity

The After School Activities (ASA) for Semester one STEM from Engineering for Kids and Public Speaking from Skill Story concluded. We would like to hear from parents the kind of activities their children will be interested in so that we can offer options based on their preferences.

Google Education Plus

MGS is actively improving its technological facilities by investing in Google Workspace. We are happy to update that the official MGS email distribution to all students is complete. Furthermore, our entire IT Admin team, teachers, and staff have completed essential training. To ensure a smooth transition, we also held online training for parents on email activation. We look forward to launching Google Classroom for all students in the month of January.

ANPS Membership

As one of the oldest educational institutions in Indonesia, MGS is proud to announce its membership in the Association of National and International Schools (ANPS). This well-connected organization comprises over 100 schools, 250 school leaders, and 500 educators across Indonesia, providing MGS with access to a wide network for professional development, collaboration, and continuous improvement in education.

Health, Hygiene, Safety and Wellbeing

To ensure a safe and healthy environment for our students, the following routine measures are regularly implemented at MGS:

- Pest Control: Routine fogging was conducted on November 21, 2025, both within and immediately surrounding the school premises to maintain a pest-free area.
- Cleaning and Disinfection: Deep cleaning and comprehensive disinfection of the facilities are carried out every Saturday.
- Smoking Prohibition: MGS strictly enforces a no-smoking policy within the school grounds and in the immediate vicinity outside. This measure is taken to protect students

from health hazards and negative influences. Public awareness banners concerning this policy are displayed outside the school.

On November 18, our school successfully administered essential booster vaccines to various primary grades. Grade 1 students received the DT (Diphtheria and Tetanus) booster, while students in Grades 2 and 5 received the Td (Tetanus and reduced-Diphtheria) booster. These vaccinations are a vital part of our school health program, offering continued protection for our students against diphtheria and tetanus.

Our Preschool students underwent a comprehensive health screening on November 19. This routine activity helps MGS track student health milestones and identify any early signs of developmental delays, allowing us to recommend immediate and effective support and intervention

Events and Holidays- December

- December 5, Primary Exam paper distribution and class party, last day for students
- December 11, PTM and report card distribution
- December 12, last working day for teachers
- December 19, last working day for non-academic staff
- December 25, Christmas.
